DETAILED ACTION

Election/Restrictions

- I. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-31, drawn to compounds, complexes, compositions, and methods of using said compounds, wherein said compound comprises a formula according to general formula (I), wherein A is a phosphorous atom, and R1 is selected from the a radical of formula (II), classified in class 521, subclass 108.
 - II. Claims 1-31, drawn to compounds, complexes, compositions, and methods of using said compounds, wherein said compound comprises formula according to general formula (I), wherein A is a phosphorous atom, and R1 is selected from the a radical of formula (III), classified in class 521, subclass 108.
 - III. Claims 1-31, drawn to compounds, complexes, compositions, and methods of using said compounds, wherein said compound comprises a formula according to general formula (I), wherein A is a phosphorous atom, and R1 is selected from the a radical of formula (IV), classified in class 521, subclass 108.
 - IV. Claims 1-31, drawn to compounds, complexes, compositions, and methods of using said compounds, wherein said compound comprises a formula according to general formula (I), wherein A is a phosphorous atom, and R1 is selected from the a radical of formula (V), classified in class 521, subclass 108.
 - V. Claims 1-31, drawn to compounds, complexes, compositions, and methods of using said compounds, wherein said compound comprises a formula according to

general formula (I), wherein A is an arsenic atom, and R1 is selected from the a radical of formula (II), classified in class 424, subclass 621.

VI. Claims 1-31, drawn to compounds, complexes compositions, and methods of using said compounds, wherein said compound comprises a formula according to general formula (I), wherein A is an arsenic atom, and R1 is selected from the a radical of formula (III), classified in class 424, subclass 621.

VII. Claims 1-31, drawn to compounds, complexes, compositions, and methods of using said compounds, wherein said compound comprises a formula according to general formula (I), wherein A is an arsenic atom, and R1 is selected from the a radical of formula (IV), classified in class 424, subclass 621.

VIII. Claims 1-31, drawn to compounds, complexes, compositions, and methods of using said compounds, wherein said compound comprises a formula according to general formula (I), wherein A is an arsenic atom, and R1 is selected from the a radical of formula (V), classified in class 424, subclass 621.

2. The inventions are distinct, each from the other because of the following reasons:

The inventions of groups I-VIII represent compounds, complexes, compositions, and methods of using said compounds, wherein the invention of groups I-VIII are drawn to compounds that are structurally distinct chemical compounds. These compounds are thus deemed to normally constitute independent and distinct inventions within the meaning of 35 U.S.C. 121. Absent evidence to the contrary, each such compound represented by groups I-VIII is presumed to represent an independent and distinct invention, subject to a restriction requirement pursuant to 35 U.S.C. 121 and 37 CFR 1.141.

Art Unit: 1635

3. Because the inventions of groups I-IV and V-VIII are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and because each of Groups I-VIII would require a unique search, restriction for examination purposes as indicated is proper.
5. A telephone call was made to Charles Muserlain on 4-25-02 to request an oral election to the above restriction requirement, but did not result in an election being made.
6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
